

Covers 2000 sq.ft.
Great for Lawns!

ENHANCED
4-4-4

Perfect Blend 4-4-4 is designed, when applied correctly, to meet your fertilizer needs for garden, nursery, house plants, patio plants, and lawn.

Proprietary Process!

Perfect Blend fertilizers are made using a proprietary process that produces a high quality Complex Nutrition Enabling Fertilizer (CNEF™). CNEF™ provides high quality complex nutrition to soil microbes that are responsible for breaking down minerals for plants while helping to maintain a balanced pH in your soil.

Now with Mycorrhizal Spore Inoculants!

Mycorrhizal is a valuable beneficial fungus, not hazardous to humans, that is of great benefit to most turf grasses, plant, shrubs, and trees. Perfect Blend fertilizer is inoculated with a blend of three dormant mycorrhizal spore species, Glomus intraradices, G. aggregatum and G. mosseae at approximately 2.58 propagules per gram total. 100% mycorrhizal strength guaranteed for two years after bag crimp date if product is kept in a dry location at less than 110° F. Fertilizer nutrient values expire after seven years.

APPLICATION DIRECTION:

Small Garden - Vegetables: Apply 2 lbs. along the bottom of a 24 foot section of the seed furrow, then cover the fertilizer with a thin layer of soil. Place your seeds on this soil layer, then cover the seeds with an additional layer of soil to the depth recommended on the seed package.

For hill plants such as squash and potatoes place one cup in the bottom and sides of the planting hole, followed by a layer of soil, then the seeds. Cover the seeds with ground level soil and then water. For legumes, such as beans and peas, less nitrogen is required. Put half as much Perfect Blend, or one cup every 50 feet, for best results. During the growing season apply an additional 2lbs. every 50 feet after your plants bloom. Work these plant nutrients into the soil around the plant root zone. A good time to do this is when you are weeding or hilling-up your plants. Always water in newly applied fertilizer.

Bedding Plants & Flower Beds: Place 1/4 tsp of Perfect Blend fertilizer in the bottom of the hole provided for the bedding plant. Place the young plant directly into the hole and on top of the fertilizer. Pack soil around and water.

Inside Potted House Plants: Make a hole in the soil along the edge of the container and into the root zone with a pencil or other utensil. Pour 1/4 tsp of Perfect Blend into this hole. Use 1 tablespoon every 6 feet or 1/2 tsp for a 6 inch pot. One can also mix 1/2 tsp of Perfect Blend per quart of water to water a typical six-inch potted plant.

Ornamentals and Trees: Place 1/3 cup of Perfect Blend in the bottom and around the edges of the hole before planting. After planting, for every 2 feet of plant height, mix an additional 1/3 cup in the soil used to fill the hole and pack around the roots. Container Plants: Mix 1/2 tsp of Perfect Blend into every quart of potting soil. Repeat every 4 to 6 weeks.

Directions For Kids & Pets Safe Lawn Applications: On established lawns apply at the rate of 20 lbs for every 2,000 square feet. Water well and wait overnight before allowing children and pets onto the fertilized area.

New Lawns will benefit from a heavy base application of Perfect Blend 4-4-4 before sod is laid. Apply at the rate of 20 lbs per 1,000 square feet before placing sod.

Existing Lawns that have been well cared for and routinely fertilized will benefit from an application of 20 lbs per 2,000 square feet approximately every 45 days.

Older Lawns, Bare Spots, or Reseeded Areas will benefit from an application of 20 lbs per 1,000 square feet.

CAUTION
KEEP OUT OF REACH OF CHILDREN

Perfect Blend, LLC recommends that this product, as well as any fertilizer, be kept out of reach of children. This product, while of a relatively mild nature, may be harmful or fatal if swallowed and may cause skin and eye irritation. Avoid breathing in the dust. Avoid contact with skin, eyes, and clothing. Washing skin with water and soap after handling. If in eyes, flush eyes thoroughly with water for 10 minutes. Repeat as needed, and follow up with a physician.

100% MONEY BACK GUARANTEE

Perfect Blend is so confident that you will find our products to be the best plant food manufactured today that we are able to offer the following simple 100% guarantee of satisfaction.

If, for any reason whatsoever, you are not 100% satisfied with a Perfect Blend product, please send proof of purchase and a copy of the cash register receipt to the address provided on this package. Your purchase price will be fully refunded.
